

ABOUT US

VIKO YACHTS

Our 30 years' experience as nautical manufacturer earned us a renowned place on both Polish and international market, as one of the most acclaimed and dynamically developing Polish yacht producers.

Improvement and cutting-edge design are the key to our success. We are constantly investing in the stock of machine tools, introducing new models each year and applying leading-edge solutions. VIKO YACHTS has merged the integration of new technologies into craftsmanship that guides our boatbuilding.

Our products are the result of combined efforts of Italian and German designers, as well as our own design team, backed up by almost 30 years' expertise. VIKO YACHTS has 10 500 square meters of production space with a reliable, modern machine park. Our employees form a passionate, competent team of advisors, technicians and dedicated production employees.

Over 200 units leave our two factories each year. VIKO YACHTS possesses 3 main outlets in Europe, whereas our international distribution network extends to nearly 30 dealers, allowing us to provide our clients with comprehensive customer service. 2018 is an opening for VIKO S 35 designed by Sergio Lupoli Italian Design studio. New models VIKO 40, VIKO 50 are due to be introduced soon, as we are relentlessly working to expand our offer.

VIKO S 35

NEW
